

DAL Deutsche Anlagen-Leasing and Deutsche Leasing Finance finance wind farm in France

- Renewable energy for about 10,000 households
- Long-term, cashflow related project financing based on French support regime

Mainz, December 2020

DAL Deutsche Anlagen-Leasing is further expanding its expertise in foreign markets. The Competence Center for Renewable Energy within Sparkassen-Finanzgruppe is realizing a wind farm in the municipality of Villers-le-Tourneur, Grand Est region in the Département of Ardennes, with funding from Deutsche Leasing Finance GmbH.

The project is being developed and erected turnkey-ready by Energiequelle GmbH, a specialist in the development and implementation of renewable energy projects and its French subsidiary P&T Technologie. Five Nordex N-117 turbines, each with a hub height of 91 m and a total capacity of 15 MW, able to supply almost 10,000 households with electricity in the future.

DAL has structured out a long-term cashflow-related project financing that will be disbursed according to construction progress, on the basis of the French funding regime with a contract term of 20 years.

The wind farm is scheduled to be connected to the grid in the 3rd quarter of 2021.

Sebastian Handschuch, Energiequelle GmbH: „We develop future-proof, demand-oriented and economical concepts, across borders, which can actually be implemented on site with the people. With DAL, we have a partner in Germany and abroad who, with a great deal of experience in international project financing and a strong shareholder, is able to safely manage, financially optimize and realize projects that are critical to success according to plan“.

Johann Woick, Project Manager at DAL: „We are pleased to be able to accompany our partner Energiequelle on this project and greatly appreciate the professional project implementation by the experienced initiator. In sustainable projects such as this one, we as project financiers can help to achieve the transition to a renewable energy supply in the context of the energy transition“.

DAL Deutsche Anlagen-Leasing GmbH & Co. KG, a member of Sparkassen-Finanz-

gruppe and a subsidiary of Deutsche Leasing Group, offers individual asset-based financing solutions customized to the needs of the target markets Corporate Clients, Real Estate, Infrastructure & Supply, Transport & Logistics and IT & Healthcare.

With a new business volume of more than EUR 2.3 billion per year, the company is one of the leading specialists in the realisation of large-scale investment projects in Germany and selected European countries.
